

## BIS Yeti® 130 Support System

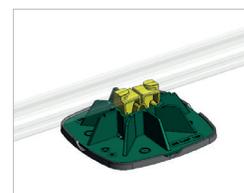

### Product specifications:

- Modular supporting system for light rooftop installations
- Flexible and cost-effective solution for pipes, cable-trays, air duct channels, etc.
- For horizontal (with Strut 1-5/8 x 13/16 and 1-5/8 x 1-5/8) and vertical applications
- Features a non-slip, anti-vibration mat
- Features a unique click-mechanism for quick and safe installation
- Resistant to UV and chemical influences
- Material: moldings made of WPC, a composite of recycled plastic and wood fiber
- Plastic components made from 100% recycled material
- UV-resistance according to EN ISO 16474-3:2014-02 - certified by ITB

Item number	Items per pkg.	Fa,z (lbs.)
67685130	10	562

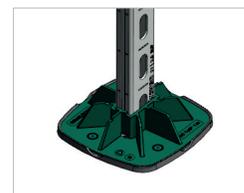

### Horizontal use

All strut rails with standard hole pattern can be used, preferably 41x21x2.5mm or 41x41x2.5mm. You can build your own length of horizontal support.

### Vertical use

Strut rails 41x21mm can be used as H-construction for light weights, the adapter is not necessary, just push the rail into the body of BIS Yeti® 130.

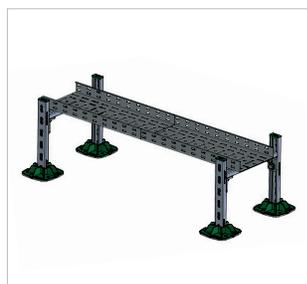

## Applications

Use as H-Set to support air duct channels

Use to support pipes

Use with electrical cable tray

Use to support walkways
