

Pacifyre® EFC Fire Collar

for penetrations of plastic pipes and multi-layer pipes

(U 04 25)

Features and Benefits

- suitable for areas which are difficult to access, like corners
- a small number of intumescent layers required, so a smaller drill hole is possible
- suitable for damp conditions
- problem solver: easy on-site modification
- penetrations in corners by using partial Fire Collar allowed by regulations (only 2/3 wrapping necessary)
- only 1 box for numerous penetrations and all pipe dimensions
- high flexibility due to self-adhesive strip
- no waste
- all fixing materials included
- tested according to EN 1366-3
- European approval: ETA-13/0793
